Summary

Senior backend engineer with 8 years building distributed systems. Owned a Temporal-based fulfillment orchestrator at scale (3M missions/day).

Skills

TypeScript, Python, Temporal, Cosmos DB, OpenTelemetry, Docker, Kubernetes, GraphQL, MCP, Zod

Experience

Staff Engineer — Flipcart Logistics

2022–present

- Owned Temporal cluster running 3M durable workflows/day.
- Designed pre-side-effect eval gates for LLM-driven dispatch.

Senior Engineer — Razorpay

2019–2022

- Built idempotent payment orchestrator (Redis + Postgres).
- Reduced p99 reconciliation drift from 8s to 200ms.

Engineer — Freshworks

2017–2019

- GraphQL surface for ticket routing.
- OTel adoption across 12 services.

Education

B.Tech CSE, IIT Madras (2017)
